Manitoba, Saskatchewan and British Columbia are Faring Badly—Extreme Cold Prevails in Alberta But Weather Continues Fine—Trains from Winnipeg to St. Paul Cancelled

WINNIPEG, Feb. 13.—A blizzard which old-timers admit to be the "real thing" in blizzards reached Winnipeg from the west this morning and developed in intensity as the day advanced, while the thermometer dropped rapidly in sympathy. This evening the city was enveloped in snow driven before a strong north wind in an atmosphere of twelve below zero, and there were no prospects of an immediate improvement in the situation. Street cars were operating under extreme difficulty and a trip down town from the suburbs was a matter of a couple of hours. Most trains were late during the day.

The blizzard came down from Saskatchewan, where it was reported this afternoon, the storm was losing its violence. Very cold weather throughout the prairies is predicted for tomorrow. Alberta has had it very cold but the weather is clear. Trains to and from St. Paul were cancelled today on account of the storm, according to railway authorities. The passenger trains are not losing much time, but locals to southern Manitoba are anywhere from two to six hours late. Freight trains are pretty well tied up.

Serious Results in Saskatchewan
Saskatoon, Feb. 13.—Howling down from the northwest, today's blizzard, the worst of the history of Saskatchewan, left a trail of white ruin behind it and temporarily shut off all transportation facilities wherever it hit the prairie.

The most serious results of the blizzard were three dead, in one of which two people lost their lives, and three others were injured and one may die. At Regina, where the blizzard was reported to have been the worst, three men were killed and one injured. Montreal, Feb. 13.—Fire that broke out in the old Trinity church, one of the religious buildings of this city, this morning, destroyed the edifice by fire when flames were burning from all parts of the building and the steeple was expected to collapse at any moment.

Trinity church was recently sold by the Anglicans to the Syrian community for \$70,000. It was the scene of most of the fashionable weddings and religious celebrations of the early nineteenth century in Montreal.

GRAVE QUESTIONS BEFORE PARLIAMENT

Arrangement for United States Debt Settlement Is Welcomed

LONDON, Feb. 13.—Parliament assembled today with questions of grave import facing it for future consideration. Premier Lloyd George, who opened the session, said that the Near East and the Ruhr, the first two questions, were bearing on the existing relations between France and Great Britain.

There has been much discussion as to whether the British would be withdrawn from the Ruhr, but the premier said he hoped it would be possible to reach an agreement which would make their retention in Germany permanent.

The withdrawal of the British troops from the Ruhr was a subject which would be discussed in the House of Commons today. The premier said he hoped it would be possible to reach an agreement which would make their retention in Germany permanent.

Paris Reports of Possible British Mediation in Ruhr Discounted By Law's Speech

LONDON, Feb. 13.—Recent reports circulated in Paris of possible British mediation between France and Germany in the Ruhr difficulty are believed to be without foundation, judging from Premier Lloyd George's speech today.

The British government also is withholding for the present its reply to the French request that France be allowed to administer a strip of railway through the British Rhineland zone, on the ground that it involves a big question of principle.

Lid Is Closed by Alberta Government on Guarantees Seed Grain or Relief Doles

Caucus Decision of U.F.A. Members Backs up Dictum of Hon. George Hoodley in Calgary—Premier Likely to Make Statement to Legislature on Thursday

The Alberta government have closed the lid and clamped it this year against any provincial guarantee or advances for seed grain and relief.

This much may be said following the most exhaustive survey of the whole matter by the cabinet during the last few weeks and after a caucus of U.F.A. members on the question within the last twenty-four hours.

Premier Greenfield and other members of the cabinet are still of the opinion as to what the government will do for seed grain and relief.

Five Hundred Walk Out Whole Scheme Is "Political Hocus-pocus" Asserts Hon. J. R. Boyle

Germans Say French Are Demanded Delivery of 48 Automobiles

Government Members Continue to Protest Faith in Wheat Board

The direct cause was made in the legislature Tuesday afternoon by Hon. J. R. Boyle, Liberal leader, that the provincial government would never establish the proposed wheat board, that the whole scheme as first advocated by President H. W. Wood of the U.F.A. was a piece of "political hocus-pocus," and that the government would come back to the house after this year with some other "ingenious explanation" as to why the board could not be constituted in the second session.

From the Liberal benches the government was subjected to strong criticism also by Hon. C. R. Mitchell, who said that the amendment which they had offered in the main motion was in itself made of a million of concrete pieces of straw.

He said that the government was to carry out the legislation of the wheat board, which would be a million of concrete pieces of straw.

LEGISLATION TO REGULATE STOCK YARDS IS COMING

Provincial Law Will Take Place of Dominion Act—Expense Not Shifted

Members of the stock exchange are worried over the legislation having to do with stock yards that is pending. As long as the Dominion Act is in force, the expense of the legislation is on the Dominion government. It is not expected that the passing of the act by the provincial government will make any difference to the present regulations for the stock yards. It is expected that the provinces will pass the legislation as soon as possible.

ALBERTA SYSTEM OF HOSPITALS WARMLY PRAISED FROM AFAR

Dr. M. T. McEachern, director of
standardization of hospitals for the
American College of Physicians and
surgeons has given splendid commendation
to the efficiency of the
system of municipal hospitals as
operated in Alberta and a letter
in regard to the standardization
of municipal hospitals. It is a
most excellent example for all provinces,
in the standard regulations which you
have laid down. I want to tell you,
Mr. Whiston, that I have not seen
anything better and I hope you will
have no question in my giving your
province particular mention in every
occasion. I am, in this regard, when
your vision is in your province, who
ever he is, I will ask him to call and
see you in regard to any of your
institutions.

BOILS MADE HIM SICK AND MISERABLE

Mr. Richard Zelenkoff, McLean,
B.C., writes: "I had been suffering
continuously with boils for three
years, and during that time I tried
many different remedies without any
success whatever. In spite of all my
efforts I was compelled to go to the
hospital. This was in the fall of the
year, and right in the hottest time
of the season. Upon my return home
it just took about two weeks until
my neck and arms were again occupied
by the boils which made me feel
very sick and miserable."
One day one of my friends advised
me to try Burdock Blood Bitters, and
after I had used them for two bottles
I was very much surprised at the result.
It is now over two years since I
got in touch with B.B.B. and I have
had no further with boils since.
I will recommend it to all persons suf-
fering from any defect in the blood.

B.B.B. is manufactured only by
The T. Milburn Co., Limited, Toronto,

debate, it is estimated, will be
a beneficial one.

FIRMS ARE PAYING BUSINESS TAXES ON INSTALLMENT PLAN

Arrangements have been made by
the city whereby firms in the city
could pay their business taxes on the
installment plan providing that they
were unable to pay the total amount
in one sum. These arrangements
were made as a result of about ten
thousand firms being in arrears with
their taxes, and according to Mayor
D. M. Duggan, the system is giving
splendid results. Up to date arrange-
ments have been made for instal-
ment payments for practically all of
the firms in arrears and present indica-
tions are that the number of firms
that are in arrears will be reduced
to a minimum.

DOG OWNERS LOSE NO TIME IN GETTING THEIR LICENSE TAGS

The city license department col-
lected a total of \$1,222.99 during the
past week, according to the weekly
report of the department. The total
amount of \$467.49 was collected
for dog licenses.
According to a new arrangement
effecting this year owners of dogs
have to come to the city hall to get
their license or stand the risk of
having their dog caught by the dog
catcher. Apparently most of the
owners have taken the risk as shown by
the fact that they are not receiving
their license without delay.

EXPOSITION OF SPRING HOSIERY

Three things establish this as an occasion of importance to the
women of Edmonton: First, the large selection; second, the new
styles and colors; third, the low prices in general and the special
prices in particular.

The significant part that hosiery
plays in smart dressing is now an
accepted fact, where a half dozen
years ago it was not. The purpose
of this Exposition of Spring Hosiery
is to acquaint you with the new

while it is new, to persuade you to
select now while selection is most
satisfactory and to illustrate that
hosiery supremacy in Edmonton is
still a Ramsey proud possession.
